1. Help	3
1.1 SiSU Manual	4
The most up to date information on sisu should be contained in the sisu_manual, available at:	5
<code>&lt;<a href="http://sisudoc.org/sisu/sisu_manual/">http://sisudoc.org/sisu/sisu_manual/</a>&gt;</code>	6
The manual can be generated from source, found respectively, either within the <b>SiSU</b> tarball or installed locally at:	7
<code>./data/doc/sisu/sisu_markup_samples/sisu_manual/</code>	8
<code>/usr/share/doc/sisu/sisu_markup_samples/sisu_manual/</code>	9
move to the respective directory and type e.g.:	10
<code>sisu sisu_manual.ssm</code>	11
1.2 SiSU man pages	12
If <b>SiSU</b> is installed on your system usual man commands should be available, try:	13
<code>man sisu</code>	14
<code>man sisu_markup</code>	15
<code>man sisu_commands</code>	16
Most <b>SiSU</b> man pages are generated directly from sisu doc- uments that are used to prepare the sisu manual, the sources files for which are located within the <b>SiSU</b> tarball at:	17
<code>./data/doc/sisu/sisu_manual/</code>	18
Once installed, directory equivalent to:	19
<code>/usr/share/doc/sisu/sisu_manual/</code>	20

Available man pages are converted back to html using `man2html`:

```
/usr/share/doc/sisu/html/
```

```
./data/doc/sisu/html/
```

An online version of the sisu man page is available here:

### 1.3 SiSU built-in interactive help

This is particularly useful for getting the current sisu setup/environment information:

```
sisu --help
```

```
sisu --help [subject]
```

```
sisu --help commands
```

```
sisu --help markup
```

```
sisu --help env [for feedback on the way your system
is setup with regard to sisu]
```

```
sisu -V [environment information, same as above command]
```

```
sisu (on its own provides version and some help informa-
tion)
```

Apart from real-time information on your current configuration the **SiSU** manual and man pages are likely to contain more up-to-date information than the sisu interactive help (for example on commands and markup).

<sup>2</sup><http://www.jus.uio.no/sisu/man/sisu.1.html>

NOTE: Running the command `sisu` (alone without any flags, filenames or wildcards) brings up the interactive help, as does any `sisu` command that is not recognised. Enter to escape.

### 1.4 Help Sources

For lists of alternative help sources, see:

#### man page

```
man sisu_help_sources
```

#### man2html

```
/usr/share/doc/sisu/sisu_manual/sisu_help_sources/index.html
```

#### sisu generated html

```
/usr/share/doc/sisu/html/sisu_help_sources/index.html
```

```

```
