<b>SiSU - Help, Ralph Amissah</b>	1
<b>SiSU Help</b>	2

<b>1. Help</b>	3
<b>1.1 SiSU Manual</b>	4
The most up to date information on sisu should be contained in the sisu_manual, available at:	5
<code>&lt;<a href="http://sisudoc.org/sisu/sisu_manual/">http://sisudoc.org/sisu/sisu_manual/</a>&gt;</code>	6
The manual can be generated from source, found respectively, either within the <b>SiSU</b> tarball or installed locally at:	7
<code>./data/doc/sisu/sisu_markup_samples/sisu_manual/</code>	8
<code>/usr/share/doc/sisu/sisu_markup_samples/sisu_manual/</code>	9
move to the respective directory and type e.g.:	10
<code>sisu sisu_manual.ssm</code>	11
<b>1.2 SiSU man pages</b>	12
If <b>SiSU</b> is installed on your system usual man commands should be available, try:	13
<code>man sisu</code>	14
<code>man sisu_markup</code>	15
<code>man sisu_commands</code>	16
Most <b>SiSU</b> man pages are generated directly from sisu documents that are used to prepare the sisu manual, the sources files for which are located within the <b>SiSU</b> tarball at:	17
<code>./data/doc/sisu/sisu_manual/</code>	18
Once installed, directory equivalent to:	19
<code>/usr/share/doc/sisu/sisu_manual/</code>	20
Available man pages are converted back to html using man2html:	21
<code>/usr/share/doc/sisu/html/</code>	22
<code>./data/doc/sisu/html/</code>	23
An online version of the sisu man page is available here:	24
various sisu man pages <sup>1</sup>	25
sisu.1 <sup>2</sup>	26

### 1.3 SiSU built-in interactive help 27

This is particularly useful for getting the current sisu setup/environment information: 28

`sisu --help` 29

`sisu --help [subject]` 30

`sisu --help commands` 31

`sisu --help markup` 32

`sisu --help env [for feedback on the way your system is setup with regard to sisu]` 33

`sisu -V [environment information, same as above command]` 34

`sisu` (on its own provides version and some help information) 35

Apart from real-time information on your current configuration the **SiSU** manual and man pages are likely to contain more up-to-date information than the sisu interactive help (for example on commands and markup). 36

NOTE: Running the command `sisu` (alone without any flags, filenames or wildcards) brings up the interactive help, as does any `sisu` command that is not recognised. Enter `^C` to escape. 37

### 1.4 Help Sources 38

For lists of alternative help sources, see: 39

**man page** 40

`man sisu_help_sources` 41

**man2html** 42

`/usr/share/doc/sisu/sisu_manual/sisu_help_sources/index.html` 43

**sisu generated html** 44

`/usr/share/doc/sisu/html/sisu_help_sources/index.html` 45

`<http://sisudoc.org/sisu/sisu_help_sources/index.html>` 46
